

Home

By Niko

Why do we have to stay home?

What could make us, for so long, stay home?

Why are all of the businesses closed?

Why is all of our shopping done at home?

Teachers are on Zoom for eight hours a day

Students are learning trigonometry from home.

People covering their mouths outside,

A surplus of masks stored at home.

Newspapers' headlines take over by graphs

Filled with cases and deaths, all read from home.

And me, during all of this chaos,

I'll be finishing the year at home.
